Floral Heart Wedding Ring Holder

MATERIAL

White cotton fabric; satin ribbon 40 cm; scissors; fabric pen water soluble.

STITCHES USED

Please refer to the sketch to reference the stitches used and the number of strands used. In the embroidery pattern the color code of Anchor Embroidery Floss is indicated by "#".

INSTRUCTIONS

Print the pattern.

Tape your pattern to a window and secure the fabric over it so you can see the pattern lines through the fabric. Tracing pattern lines onto fabric with a fabric pen water soluble. An ordinary pencil will work too, although just be sure you cover lead pencil lines completely with your embroidery.

Place the fabric in the embroidery hoop.

Embroider stems with stem stitch and fly stitch.

Embroider leaves with lazy daisy stitch and fishbone stitch.

Embroider flowers with woven wheel stitch, lazy daisy stitch and bullion loop. For bullion loop, the size depends on the number of strands and wraps. This number is indicated in the embroidery pattern.

Embroider flower centres with french knots (2 wraps).

Sew a satin ribbon in the center.

You can finish the back of your ring holder sewing a felt circle or gluing a scrapbook paper.

WASHING INSTRUCTIONS

All our threads are produced in accordance with Oeko-Tex standards. PH values are tested and all our colour dye lots adhere to Global fastness standards. However, it is important to follow our thread washing instructions. Particularly with dark colors, excess dye can remain on the thread. To minimise any potential bleeding of excess dyestuff it is important to wash the products in THE HOTTEST TEMPERATURE possible, in accordance with the specifications of the fabrics, and use a large amount of water. Please make sure that you also follow the fabric washing instructions where appropriate. As a precaution, you can also use decolorating sheets that you can find in any supermarket.
