0022174-00000-15 Parrot and Roses Rucksack

Anchor Mouliné Art. No. 4635000-

1 x Anchor Stranded cotton for each shade listed

Rose: 5,8 cm x 7,8 cm
Parrot: 8,9 cm x 15,2 cm

Embroidery

Easy

Parrot and Roses Rucksack

Step 1

Place your bag front side up.

Step 2

For this project, you need a piece of felt large enough to stitch the three individual motifs. Select a felt colour that is as close in shade to your bag as possible. To begin, take a piece of waste canvas and cut three pieces larger than the size of each motif (see waste canvas instructions). Secure the first piece of waste canvas onto the felt using tacking thread. Cross stitch each motif individually and remove the waste canvas (see cross stitch instructions).

Step 3

Now cut each motif out of the felt leaving a 3mm allowance around the motif. Place the motifs onto your bag in the required position and secure with either slip stitch around the edge or use a fusible fabric to iron into place.

WASHING INSTRUCTIONS

All our threads are produced in accordance with Oeko-tex standards. PH values are tested and all our colors dye lots adhere to Global fastness standards. However, it is important to follow our thread washing instructions. Particularly with dark colors, excess dye can remain on the thread. To minimize any potential bleeding of excess dyestuff it is important to wash the products in THE HOTTEST TEMPERATURE possible, in accordance with the specifications of the fabrics, and use a large amount of water. Please make sure that you also follow the fabric washing instructions. As a precaution, you can also use decolorating sheets that you can find in any supermarket.

General recommendations for the cross stitch projects

The garments that we have chosen to embroider are suggestions and can be substituted onto any garment of your choice.

Fabric: avoid sheer, satin, silk, open weave or open knit fabrics.

Needle: embroidery needle size 9.

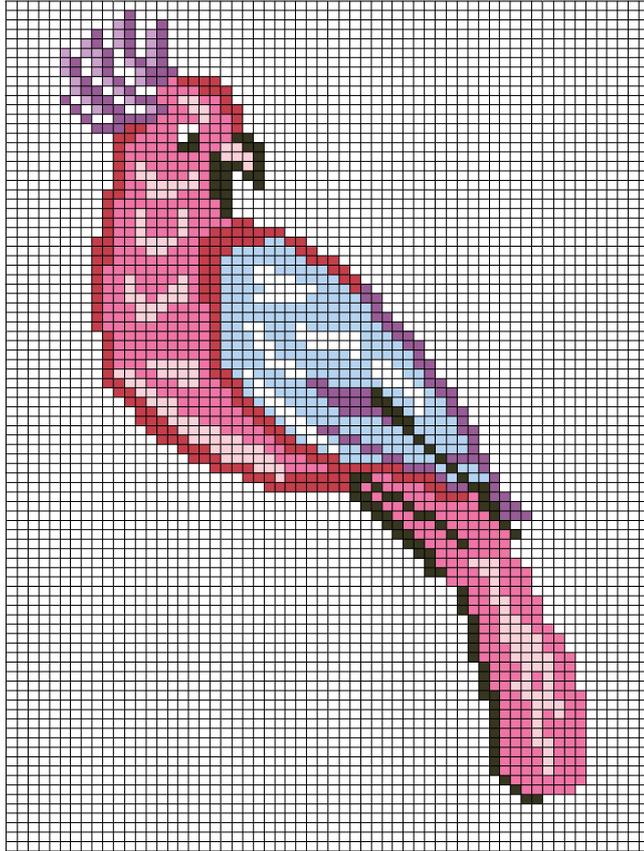

Embroidery hoop: use wherever possible.

Waste canvas: 14s count waste canvas is required for the cross-stitch projects, this enables you to stitch the cross-stitch motif directly onto your garment. Cut the waste canvas to a larger size than the finished embroidery. You can use either dissolvable waste canvas or waste canvas that is removed with tweezers after stitching.

Felt: this can be used to stitch on when the fabric that you want to stitch on is too difficult to stitch through. Select a piece of felt that matches the colour of your item and use the waste canvas to stitch onto the felt. Once complete, trim carefully around the stitched area leaving a 3mm allowance around the stitching and then apply the stitched felt motif to your item using either slip stitch or a fusible fabric.
