### Making up

Weave in loose ends and stitch seams, leaving opening for stuffing. Stuff and sew opening. Alternatively, to ensure the cushion retains its shape: Lay front of watermelon down and trace around edges onto two pieces of calico or cotton fabric. Place fabric right sides together and sew all the way around leaving a 1cm seam allowance and a 10cm gap for turning. Turn right side out, snipping corners as necessary. Stuff firmly and stitch gap closed. Using mattress stitch, sew watermelon seams, leaving an opening big enough to insert the cushion pad you have created. Insert cushion pad and stitch remaining seams around it.
