CABLE AND BOBBLE SCARF

ILLUSTRIOUS DESIGN BY EMMA WRIGHT

General Info

It is essential to work to the stated tension to ensure success. You should always start by knitting a tension square before knitting the full garment.

If you have too many stitches to stated tension, your tension is too tight and you should change to a larger needle. If there are too few stitches, and your tension is too loose garment performance may be affected and you should change to a smaller needle. Please check individual patterns for tension before starting garment.

Instructions given are for the 1st size, with larger sizes in brackets. Where only one figure or instruction is given, this applies to all sizes. Work all directions inside brackets the number of times stated.
