## Tension

It is essential to work to the stated tension in order to achieve the desired fabric and garment size. You should always start by knitting a tension square before knitting the full garment.
If you have fewer stitches than stated you will need to go down needle sizes until the correct tension is achieved. If you have more, you will need to go up needle sizes. Please check individual patterns for tension before starting the garment.

## Finishing

Using Kitchener stitch to join underarm seams.
Once your garment is completed it is essential to block your knitting. Pin your garment out to the size stated in the pattern, cover with a damp cloth and leave to dry.
