Making up instructions

Lay your giant crochet square flat on a surface so the right side is facing down and you can see the wrong side.

Place the cushion pad in the centre of the crochet square at an angle so that it looks like a diamond and the corner points of the cushion pad touch the middle of each edge of the giant crochet square.

Fold the corners of the giant crochet square over the cushion pad so that the four corners meet in the middle. You may wish to secure the four corners together in the middle with a stitch marker (or safety pin) whilst you sew up.

Sew the edges of the giant crochet square together using whip stitch, working from one of the newly formed corner points of your cushion straight across to the opposite side of the cushion. Match your 2dc groups together as you go, sewing through the tops of each matching stitch. Repeat this process to sew the remaining edges together.

Optional Extra: You could sew in a zip at this point if you'd like to be able to remove your cushion cover.

Sew in any remaining ends. This completes your cushion.

Matching blanket option

You could make a matching blanket for your cushion using this pattern to make a giant granny square blanket. To do this after round 32 go back to round 25 instructions and keep working from round 25 to 32 on repeat until you have a blanket that is your required size. You will need to alternate the starting colour for each round of moss stitch as you have been doing in the pattern so far. Once you have reached the required size of your blanket, do one final round following round 33 instructions.
