## IMPORTANT

Please note that the limitations of the printing process mean that the actual colour will not always precisely match the colours in the photograph.

Use only the Yarnsmiths yarn specified. We cannot accept responsibility for an imperfect garment if any other brand is used. It is essential to work to the tension stated. The quantities of yarn stated are based on average requirements and are therefore approximate.

## TENSION

It is important to check your tension before commencing the throw.
Basic motif measures 25 x 25cm, 10 x 10ins using a 4.00mm hook. If motif is too small, then your tension is tight and you will need to change your hook to a larger size. If motif is too big, then your tension is loose and you will need to change your hook to a smaller size.
